

## Dennis Gilli (29.04.1992)

~~~~~  
Bergstrasse 30, 6052 Hergiswil  
dennis@gilli.ch  
079 719 37 62  
~~~~~

I am a dedicated fullstack web developer with a flair for creating seamless user-experiences and robust backend solutions

---

### 06/2023 - Quickmail-ag.ch / Quickpac.ch Sitebuilder and Integrated Parcel Tracker

Spearheaded the development incorporating a section-based site builder, emphasizing critical, zero-tolerance availability and performance by incorporating automated testing and visual regression checks.

### 04/2022 - Verium.ch V2 Redesign Launch

Directed the Verium.ch V2 redesign, leveraging freelance talent to refine and tailor the website according to user feedback and V1 insights.

### 07/2020 - Grieshaber-Feinmechanik.de a Christ & Heiri Sister Site

Enhanced existing website code to develop a fully-fledged reusable theme. Created a complementary sister website featuring a unique color palette and distinct components.

### 05/2019 - Bergen-Beteiligungen.de Relaunch

### 04/2019 - Eidg. dipl. Web Project Manager Digicomp Zürich

### 11/2018 - Poderepantarei.com Low Code Wordpress Site

### 04/2017 - Adidassler.org Redesign Launch

### 09/2016 - SwissPGA.ch Site, Members and Event Management

### 10/2015 - Verium.ch V1 CMS Integration

### 04/2015 - Start bei acribis AG

### 06/2014 - Handelsschule dipl. Kaufmann VSH TEK0 Luzern

### 2013-16 - Ski- and Snowboardinstructor Klewenalp/Stockhütte

### 2011-13 - Undergraduate St Louis University, USA (Marketing Major - incomplete)

### 05/2011 - Highschool Diploma TASIS Lugano

### 07/2008 - ORST Emmetten

**Project Management:** Leveraging a mix of traditional and agile methodologies, I excel in orchestrating project timelines, resource allocation, and the complexities of software development processes. My focus is on risk management and delivering results that align with both technical and business needs.

**DevOps:** As a DevOps enthusiast, I am passionate about automating development pipelines. My expertise encompasses version control systems, automated testing frameworks, and deployment strategies, reducing time-to-market while maintaining high-quality standards.

**Collaboration and Traceability:** I manage software development - emphasizing version control and collaborative tools, ensuring transparent and accountable workflows. Resulting in a more cohesive and reliable software lifecycle.

## Technical Proficiencies:

- Languages: JavaScript, PHP, Go, Lua, HTML/CSS
- Frameworks: Vue.js, Node.js, Tailwindcss, Webpack/Vite
- Databases: MySQL, PostgreSQL, SQLite
- Cloud Platforms: Azure
- DevOps Tools: Docker, Makefile, Bash, Azure DevOps
- Version Control: Git, Github, Azure Repos
- Other Tools: Vim, Craft CMS, Playwright, Google Analytics

## Core Competencies:

- Traditional Project Management
- Continuous Integration & Deployment
- Automated Testing & Quality Assurance
- UI/UX Design Principles
- Analytical Problem-Solving
- Effective Resource Management
- Team Collaboration & Communication
- Understanding of Web Performance Optimization
- Bilingual: Native German and English - full proficiency

## Interests:

Overland Travel, Home Cooking, Scuba Diving, Reading, Tinkering at Home Automation with Raspberry Pi, General Passion for STEM, Being a Dedicated and Fun Dad
